

Standard Manufacturing Tolerances for Standoffs & Spacers

Aluminum, Brass, Steel & Stainless Steel

- Lengths up to & including 6" (inches), the tolerance is +/-0.005
- Lengths over 6" (inches), the tolerance is +/-0.010
- Lengths up to & including 99mm (millimeters), the tolerance is +/-0.13mm
- Lengths from 100mm to 150mm, (millimeters), the tolerance is +/-0.20mm
- Lengths over 150mm (millimeters), the tolerance is +/-0.25mm

Standard commercial tolerances apply to all outside diameters.

Nylon, Phenolic, Teflon & Fibre

- The tolerance for all lengths is +/-0.010
- The tolerance for the outside diameter is +/-0.010

Standard Manufacturing Tolerances for Handles

Aluminum, Brass, Steel & Stainless Steel

- The tolerance for the length & height is +/-0.032

Standard commercial tolerances apply to all outside diameters.
